## Fair Trade

Our commitment to Fair Trade defines who we are:

### Direct Impact on small-scale farmers:

Compensating them fairly and treating them with dignity.

### Improvement of our workforce's quality of life:

Engaging and empowering female workers, which we legally hire with permanent contracts.

### Responsibility and accountability towards our customers:

Offering transparent product traceability and the highest value for money.

## Organic Production

A firm belief in sustainability and the highest respect for our consumers are the main drivers for our commitment to Organic Production.

As part of this effort, we support our business partners (farmers) in their goal to become 100% Organic Certified.

# About Us

Fruandes is a Colombian social company, B Corp, that brings healthy products to the international market. Pioneers in Organic and Fair Trade Certified non-traditional products such as mango, pineapple, criollo banana, goldenberries, dragon fruit, sugar cane, cocoa and peanut.

We source the raw material directly from fourteen different small-scale farmer association, located in five regions of the Colombian Andes

Our mission is, together with farmers, to develop cost-effective, high-quality and environmentally sustainable business alternatives on a day-to-day basis. Fruandes responds to the needs of a healthy and conscious market with a broad portfolio of direct consumer products and raw materials, and respects the direct fair trade parameters by bringing the final consumer closer to the source.

Our healthy snacks are free of additives and preservatives, offering consumers in its natural state, providing the highest quality of rich flavour and juicy texture.

# Fruandes Community

## The Colombian Andes

We are proud to call Colombia home and feel privileged to enjoy the agricultural benefits of the world's second most diverse nation. The Colombian Andes signature landscape reminds us of the endless potential of this soil, a richness you can taste every time you consume one of our products.

# Our Products

All produce is transported to and received at Fruandes' production plant in Ibagu  following strict quality standards. Once the fresh fruit reaches the facility, our team carefully analyzes and selects each piece according to its ripeness. Then, each fruit undergoes a washing and disinfection phase, which is followed by the fruit-specific processing program, a final quality control, and final packaging process.

Our range of products comes from eight raw materials:

## Organic & Fair Trade

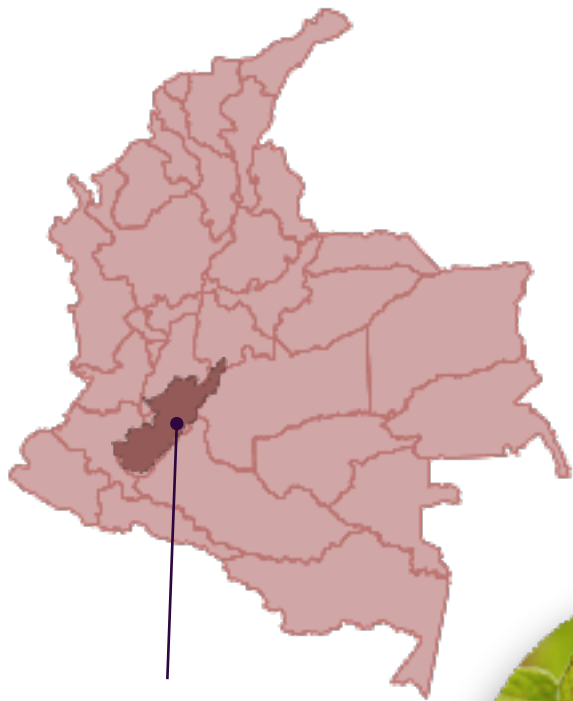

- ◆ Mango
- ◆ Pineapple
- ◆ Banana
- ◆ Goldenberry
- ◆ Dragon Fruit
- ◆ Sugar Cane
- ◆ Cacao
- ◆ Peanut

At our facility, our team transforms the raw materials into healthy and delicious snacks according to our customer requirements. Our range of final products include:

## Organic & Fair Trade

- ◆ Fresh Fruit
- ◆ Dried Fruit
- ◆ Cane Sugar
- ◆ Cocoa
- ◆ Peanuts
- ◆ Fruit Bites
- ◆ Chocolates
- ◆ Fruit Spread
